

SPECIALIZING IN CONSTRUCTION

The construction sector is one of the largest segments of the economy, and includes building construction, infrastructure and industrial. The industry operates a wide array of equipment to accomplish all phases of construction and encompass almost all industries across the global economy.

Having worked with the largest construction firms and rental equipment companies in the world, Gordon Brothers' experts bring decades of combined experience to each project. Our tenured team is on the ground in key markets providing reliable valuations of equipment across every construction and engineering sector.

BY THE NUMBERS

700+

valuation projects
completed in the
construction industry

592,000+

construction equipment data
points in proprietary sales
database since 2015

OUR INDUSTRY EXPERTS HAVE APPRAISED MACHINERY AND EQUIPMENT ASSOCIATED WITH:

- Highway and Road Construction
- Aggregate Mining and Processing
- Land Preparation and Clearing
- Ready-mix Concrete Production
- Concrete Forming, Structural
- Shoring and Scaffolding
- Marine Construction
- Pipeline Construction
- Asphalt Processing and Paving
- Foundation and Geological Drilling
- Heavy and Light Construction
- Tunneling, Boring, and Directional Drilling
- Heavy Mining
- Material Handling
- Pile Installation
- Trenching
- Concrete Pumping
- Trench Safety and Protection
- Traffic Safety and Control
- Electric Distribution and Transmission
- Foundation and Geological Drilling
- Heavy Equipment Transportation
- Cranes, Rigging, and Hoists
